

Program	Packaging Technology	Code X	K	0	4
Department	Packaging and Materials Technology	Faculty	Agro-Industry		
Degree Name	Master of Science (Packaging Technology)				
Plan	Plan A 1 (Research only) and Plan A 2 (Research and coursework)				
Number of Students	First Semester:	15	persons (Plan A1: 3	persons; Plan A2, 12	persons) (Re-open)
	Second Semester:	15	persons (Plan A1: 3	persons; Plan A2, 12	persons)

Applicant's qualifications and additional qualifications specified by the program

1. Applicant must hold a bachelor degree in Packaging Technology, Materials Science, Chemical, Food Science, Engineering or other related fields.
2. Qualification requirements of applicants are subject to Kasetsart University Regulations on Graduate Studies The Graduate School, Kasetsart University.
3. Research area are available in various aspects of packaging such as Packaging Materials, Active and Intelligent Packaging, Biodegradable Packaging, Food Packaging, Distribution Packaging, Functional Packaging, Packaging for Marketing and Consumer Behavior and Packaging Design and Development
4. Please attached copy of TOEFL or IELTS score report, if available
5. Research grants of Internationals students are available, please contact pkmt@ku.ac.th for opportunities
6. For more details, please visit <http://www.agro.ku.ac.th>

Details of Admission Examination

Examination	Date / Place	
	First Semester (Re-open)	Second Semester
Written Exam	20 May, 2022 09:00-12:00 Room 5616 Agro-Industry building 5, 6 th floor, Faculty of Agro-Industry	10 October, 2022 09:00-12:00 Room 5616 Agro-Industry building 5, 6 th floor, Faculty of Agro-Industry
Oral Exam (Interview)	27 May, 2022 09:00-12:00 Department of Packaging and Materials Technology, Room 5615 Agro-Industry building 5, 6 th floor	17 October, 2022 09:00-12:00 Department of Packaging and Materials Technology, Room 5615 Agro-Industry building 5, 6 th floor

Announcement of interview candidates (Available only if the program has written examination)

Name list eligible for interview for the first semester will be announced by February 25, 2022 at the second semester by October 13, 2022 at the department of Packaging and Materials Technology, Faculty of Agro-Industry. Phone: +662-562-5045

Additional information

The Department of Packaging and Materials Technology at Kasetsart University was established in 1980. It is the first institution in Thailand and also in Asia-Pacific region that offers the degree in Packaging Technology from bachelor leading to doctoral degree. Research only options for M.S. and Ph.D. Degrees are also available for packaging professionals worldwide. The institution has research collaboration with various well-known institutions in Thailand and other countries.

Research areas of the Department cover a wide range of specialties based on diverse backgrounds of faculty members. Current research areas include packaging materials, active and intelligent packaging, biopolymer packaging, food packaging, nanotechnology innovation (nanoparticles, nanocapsules, nanocoating), packaging process and machinery, distribution packaging, innovative packaging design and development, packaging management, sustainable packaging, as well as printing technology for packaging materials and packages.
